Structured list format with numbered tips — " Sunscreen " is a standard skincare advice article, establishing a practical, actionable tone. The phrase " regardless of the SPF, regardless of " signals a classic sun safety tip about sunscreen, implying a checklist of factors like location, weather, or destination. Final token " of " opens a dependent clause (" regardless of... the type of skin, or the type of... "), requiring a noun phrase — likely " the weather " or " destination " or " whether you're indoors or outdoors " or " the activity you're doing. " or " the destination / climate you're visiting " — a vacation / holiday context.
